

**SUNDAY**

Department of Developmental Biology and Cancer Research

**DEC8**

12:10

Prof. Amir Orian

Lecture Hall

Technion – Israel Institute of Technology

Dalet, Floor 0

Ubiquitin, cell identity, and cancer

**MONDAY**

Department of Microbiology & Molecular Genetics

**DEC9**

9:00

Prof. Yossef Av-gay

Levi Hall,

University of British Columbia

Botnar

TB or not to be: Host Directed Therapy against notorious pathogens

**MONDAY**

Young Seminar

**DEC9**

Sima Alon-Justman

12:00

Faculty of Medicine, HUJI

Rubin

"The Dormancy and Awakening of the Spore

Auditorium

Translational Machinery"

**TUESDAY**

Immunology and Cancer Research Seminar

**DEC10**

12:10

Oren Avram, PhD

אולם 7 ז,  
3<sup>rd</sup> Floor

University of California, Los Angeles

Practical Pathways to Better Health

**WEDNESDAY**

Department of Medical Neurobiology

**DEC11**

Dr. Tal Laviv, Ph.D.

12:05

Tel-Aviv University, Israel

The Seminar

Illuminating Protein Signaling Dynamics

Room ,4th Floor

In Intact Neuronal Circuits

**THURSDAY**

Department of Biochemistry & Molecular Biology

**DEC12**

Prof. Avraham Ashkenazi

12:15

Tel Aviv University

Levi Auditorium

Modeling and Targeting Parkinson's Disease Progression Inside and

Ground Floor

Outside the Brain.
