

SUNDAY

Department of Developmental Biology and Cancer Research

JAN 26

Prof. David Enshell-Seijffers

12:10

“Unraveling the molecular clock of the hair follicle”

Lecture Hall

Dalet, Floor 0

MONDAY

Department of Microbiology & Molecular Genetics

JAN 27

Prof. Nabieh Ayoub

9:00

“Harnessing DNA replication stress to target RBM10 deficiency in lung adenocarcinoma”

Levi Hall,

Botnar

MONDAY

Young Seminar

JAN 27

Gitit Vaalani

12:00

“Deciphering A Putative Protective Role Of P53 Hotspot Mutations In Normal Tissue Damage”

Rubin Auditorium

TUESDAY

Immunology and Cancer Research Seminar

JAN 28

Dr. Yael Weiss-Ottolenghi

12:15

“Facing tomorrow's threats: boosting preparedness for future pandemics”

Hall 7

3rd Floor

WEDNESDAY

Department of Medical Neurobiology

JAN 29

Prof. Itamar Harel

12:05

“The Genetics of Aging”

The Seminar

Room 4Floor

THURSDAY

Department of Biochemistry & Molecular Biology

JAN 30

Prof. Anat Ben-Zvi

12:10

“Regulation of Mitochondrial Protein Homeostasis in a Multicellular Organism”

Levi Auditorium

Ground Floor
