

SUNDAY

Department of Developmental Biology and Cancer Research

MAY 4

12:10

Lecture Hall Dalet,
Floor 0

Dr. Moran Yadid

“Tissue engineering for disease modeling and regenerative medicine application in the cardiovascular system”

MONDAY

Department of Microbiology & Molecular Genetics

MAY 5

9:00

Levi Hall, Botnar

Prof. Ariel Amir

“Insights into bacterial growth and division from single-cell data”

MONDAY

Young Seminar

MAY 5

12:00

Rubin Auditorium

Julia K. Varga

“Navigating the Complexities of Peptide-Protein Interactions in the AlphaFold Era”

MONDAY

2025 Harvey Prize Recipient

MAY 5

14:00

Rubin Auditorium

Prof. Andrew Feinberg, MD, MPH

“New advances in the epigenetics of common disease”

TUESDAY

Immunology and Cancer Research Seminar

MAY 6

12:15

Hall 7 3rd Floor

Dr. Yael Litvak

“The Bully Virus: Phage-Mediated Virulence”

WEDNESDAY

Department of Medical Neurobiology

MAY 7

Seminar will not take place this week

THURSDAY

Department of Biochemistry & Molecular Biology

MAY 8

12:10

Levi Auditorium
Ground Floor

Dr. Chen Lesnik

“Keeping Oocytes Young: Mitochondrial Insights into Reproductive Longevity”
