

# Celebrating Prof. Esty Shohami's 80<sup>th</sup> Birthday Symposium in Neuropharmacology!

Over the years, Prof. Shohami's pioneering research and dedication have paved the way for groundbreaking advancements in the field. Her insights into neuropharmacology have not only enriched our understanding but have also shaped the direction of research and treatment.

This special symposium will feature enlightening talks by leading experts in the field, colleagues, and her past students on the latest breakthroughs, and an opportunity to express gratitude for Prof. Shohami's invaluable contributions. It's a gathering that promises to be as inspiring as her work.
